## DANIEL WALBIDI

Year Born 1982

Language Group Mangala

Skin Name Purungu

---

Daniel Walbidi comes from a small community just 180km south of Broome. The place is called Bidyadanga. It was first the traditional homeland of the Karagarri people who lived on the coast. When La Grange Mission started people were brought in from the desert and helped build the cattle stations. Bidyadanga has five tribes living in one community. We all speak and understand each other's languages and live together as one big family.
